

### March 6, 2005

Our family would not be the same without the love of our precious puppy. (She'll always be a puppy to me) At nearly 80 pounds, Leebah has just now decided that she needs to cuddle with us when we are watching television. We love her so much. Thank you for all you do.

Ricki is now "Leebah". She loves hanging around the family and playing with...well anything she can get her paws on. After a full day of play she goes to sleep on "her" couch. She is truly a blessing and has brought such joy to our home. She is truly a part of the family. When we adopted Leebah she was nearly 40 pounds and didn't expect to see her get much bigger. At one year she has nearly doubled her weight! Thank you for your dedication and love for these beautiful and intelligent animals.
