

August 2004

Rusty is a playful, lovable, intelligent GSD. He always loves to play and I even taught him on how to find me when I am hiding indoors and out. He is about 3 years old now. He loves playing ball and catch with the frisbee. He likes chasing squirrels up trees when we go to the park, and he still can't figure out where they go when they get to the tree. we also gave him a few stuffed animals to play with that he loves to throw around the room...
