

March 15, 2007

Hello! I'm happy to report that Sheba has adjusted fabulously to her new surroundings, her new furry friends, and her new humans!! She is the self-appointed supervisor of everyone in the household - taking it upon herself to lead and herd Boomer and Buddy out to the yard and back into the house. She likes to ride in the Trailblazer, and she LOVES to ride "shotgun" in [the] big pick-up truck! ... She has been to our vet, been to the groomer, been introduced to neighbors and friends, and everyone has commented on her sweet personality and her beautiful markings. We're so happy to have Sheba.
